COMPANY PROFILE MAGAZINES

WHO WE ARE

RENCON Industries is a commercial and residential construction company that has faithfully served customers in Edmonton and surrounding areas since 2004. Originally called Renovations by Dan Inc., the name was changed in 2011 to reflect the nature of owner Dan Adamski's rapidly expanding business and to emphasize the company's principal work in renovation and contracting.

Today, RENCON Industries boasts almost 20 employees and has been involved in every type of renovation imaginable! With a reputation for working closely with clients, RENCON truly practices what it preaches - construction your way - from start to finish!

WHAT WE DO

Although the focus for RENCON Industries is primarily on renovation, the company has also built custom homes from the ground up for some of its clients. The commercial side of the business has also grown substantially - and continues to grow - with a variety of projects, including saunas, meeting rooms, commercial bathroom facilities, and ground up design build construction.

CORE VALUES

Why do so many past clients come back to RENCON Industries? It's because of our core values.

What we believe in:

- Quality and attention to detail expected for a high end dream home.
- Extra touches that take the project beyond our customer's expectations.
- Unwillingness to do things inexpensively at the expense of quality.
- Cooperative and respectful attitude between client, designer and crew.
- Options of using environmentally-friendly materials.

RESIDENTIAL

A small sampling of our work:

- New construction
- Bathrooms
- Additions
- Kitchens
- Basements
- Exteriors

COMMERCIAL

When you hire RENCON for commercial renovations, here's what you'll get:

- Experienced professionals that ensure your project stays on track and on budget.
- An understanding of municipal commercial codes and engineering requirements.
- Cooperation with sub-trades and adherence to strict schedules.
- The insight that helps you visualize the unique structural solutions required for your project.

WHERE TO BEGIN

If you're interested in talking to us about your project there's many ways to begin! Check out our website at www.renconindustries.ca to have a quick look at who we are and what kinds of projects we've been involved with over the years. And of course a picture tells a thousand words, so have a look at the photo gallery for a small sampling of work we've done on kitchens, bathrooms, garages, sheds and much more.

And don't hesitate to call us for an in-person, face-to-face consultation. We'll be happy to sit down with you and review your project, whether it's for a backyard shed or your latest ideas for a dream home!

We'll set up a time to meet and even have a look at the space and location - if necessary - and we'll discuss your ideas with a few of our own. And depending on the complexity of the job and your commitment to begin, we'll even line you up with a floor plan designer and an interior designer! We also provide you with a preferred vendor list where you can go and check out the multiple material options available for today's residential and commercial environments.

Westlock Ford

"Since 2004, we started working with Westlock Ford for new purchases and warranty/repairs and also repairs to our existing vehicles. Our company relies on dependable vehicles to get to and from work sites, it's imperative that we have the least amount of down time possible with our vehicles.

We chose Westlock Ford because they listened to our needs/requirements and provided us with exceptional customer service that we couldn't find at other dealerships.

With today's busy market it's difficult to find genuine customer service and we know that when we require a repair and get the vehicle back, the issue has been resolved so we don't have additional down time. They are always willing to physically show us the issue or repair that has been completed.

They will continue to have our trust in both repairs and purchases.

When dealing with the sales team, they're always able to find the vehicle that meets our needs and on budget. Westlock Ford is a "small town" dealership that still cares about their customers, they address you by name and they are always willing to help. With their exceptional service and attention to their customers, we will continue to do business with them for years to come!

We highly recommend Westlock Ford to everyone whether it's business or personal use!"
